Immunology

The immunology platform’s mission is to address unmet medical needs with best-in-disease or best-in-class medicines and to deliver unparalleled customer experiences—with a strong focus on small molecule and biologics in the following indications:

- Rheumatoid arthritis
- Psoriasis
- Systemic lupus erythematosus
- Crohn’s disease
- Ulcerative colitis

Lilly Immunology is also interested in the following indications:

- Ankylosing spondylitis
- Psoriatic arthritis
- Lupus nephritis
